DAVID R. DUNN
PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The examiner agrees with Applicant's remarks that Farmer fails to show means for detecting the pattern in the obtained image.

Regarding Khairallah et al. (6,810,133), this reference shows an occupant sensing system which compares two images to determine the presence of an occupant. Khairallah et al. does not show a means for detecting a pattern located on the vehicle structure in the obtained image, or means for removing portions of the image associated with the pattern. Khairallah et al. does teach removing the effect of ambient sources in the images, however, this refers to effects such as shadows, not a "pattern located on vehicle structures". Further the removal of the ambient sources is not a "means for removing portions...so as to obtain information regarding occupancy within the viewable field." In Khairallah et al. an additional step is required: after the sources are removed, the image must then be compared with another background image to determine the presence of an occupant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Dunn whose telephone number is 703-305-0049. The examiner can normally be reached on Mon-Thur, alt. Fridays, 9:00-5:30.
